

INSTALLATION SHEET

Any damaged or missing parts?

Parts will be shipped to you directly. Call 844-779-8986 Mon - Fri 8:30 am - 7 pm EST or email support@bakindustries.com

If the truck does **not** have a drop in bedliner, install the cab/bulkhead seal (weather strip). Wipe paint ed surface with isopropyl alchol before applying. If the truck has a drop in bedliner, no seal will be needed.

Close tailgate. Place BAKFlip rail on truck bed with silver bracket all the way forward and toward the center of bed as shown. Refer to enclosed Spacing & Shimming Sheet for more details. Rails should be completely level.

the rail is clamped Make sure the square as clamp is inserted shown. all the way up Start at the into the rail and front, and clamp teeth are place the alinged to rail first clamp slots to ensure approx 6 to 9 inches back. a secure grip.

Place the rear clamp approximately 6 inches (152 mm) from the tailgate. Tighten all of the clamps until snug. Then torque an additional 1/2 turn, (10 ft-lbs).

Repeat steps 2-7 on the opposite side.

The small panel faces forward, toward the cab and folds down over the slotted rail brackets. The front panel must sit just inside the bulkhead rail with the seal resting on top of the bulkhead. Fold the panel down and align it so it is setting squarely on the rails and align the mounting holes with the slotted rail brackets.

Before placing the cover on the truck, use a screwdriver to install the two buckle ends into the pre-drilled holes on the front header panel with the provided machine screws and threaded posts

DO NOT use a screw gun, securely tighten by hand only.

Route the front drain hoses from the end of the rail out through manufacturer avail - able bed plug. Simply remove these plugs or drill a 7/8" hole through the plastic. If you have a drop in plastic bedliner, simply run the drain tubes behind or under the liner.

IMPORTANT safe operation and use

Tail Panel Operation TO CLOSE THE TAILGATE PANEL

The tailgate can be closed with the cover either up or down for universal operation

TO OPEN THE TAILGATE PANEL

- Open the tailgate and reach under the panel for the cable at the ends of the panel housing
- Pull down on either cable to release both rear latches with one hand while lifting the panel with the other hand.

DO NOT ATTEMPT TO DRIVE WITH THE TAIL PANEL IN THE PARTIALLY OPEN POSITION!

IMPORTANT for operation and use

safe operation and use

IMPORTANT NOTICE

While driving, cover must be completely flat and secure with all latches in the closed position OR completely folded up (all panels) and secured at the cab. **DO NOT DRIVE** with cover partially opened.

Tonneau Cover Positions While Operating Vehicle

Prior to vehicle operation, tonneau cover MUST be properly secured.

CLOSED POSITION

All panels must be closed and FULLY LATCHED to tonneau side rail. All panels must be flat and latches engaged

FOLDED UP POSITION

To drive with your cover in the folded up position, simply make use of the provided tie down straps and buckles provided with your cover. Ensure BOTH buckle clips are fully inserted into the buckle ends located on the front header panel of the cover and adjust the straps to ensure the cover is secure during vehicle operation. The clips should be secured in the storage position, as shown in Figure 1, when not in use.

FOLDED UP POSITION

FLIPPED UP POSITION

A) Fold the cover open and lift it until its vertical or past 90 degrees towards your truck cab. Then release the prop rod that is attached to your rail. Fold the prop rod over and position it firmly against the vertical plate on the underside of your cover.

Then slide the prop rod locks downward and tighten the knobs to lock into position.

Do this on both sides of the cover.

B) Your cover should be firmly in position with little to no movement once the prop rods are locked.

Additional Important Operating Tips

- The bed cover MUST be free of foreign material including snow and ice before opening panels.
- Do NOT tow your vehicle from the rear with the bed cover on your truck.
- Do NOT operate vehicle with objects on top of cover.

FAILURE TO FOLLOW THESE CAUTIONS MAY RESULT IN SEVERE DAMAGE AND WILL VOID YOUR WARRANTY!

Remove any snow or foreign matter before folding cover.

Do NOT tow your vehicle from the rear with this cover on your truck.

Warranty

BAK® Industries ("BAK") warrants your BAKFlip Hard Folding Cover to be structurally free from defects in material and workmanship for the period as outlined in the table below from the retail date of purchase. Warranty registration must be on file and/or proof of original purchase (detailed and dated receipt) required for warranty service. Warranty is non-transferable and applies to the original purchaser of the BAK product only.

PRODUCT	WARRANTY PERIOD	REGISTER YOUR WARRANTY
BAKFlip G2	3 Year Limited Warranty

BAKFlip FiberMax	3 Year Limited Warranty	BAKINDUSTRIES.COM
BAKFlip F1	5 Year Limited Warranty	

BAK reserves the right to determine whether a product needs to be repaired or replaced. No labor or service allowance is given or implied. The warranty will be void if the product has been damaged by accident, unreasonable use, neglect, improper service/installation/removal, modifications, acts of God or normal wear and tear or other causes not arising out of defective materials or workmanship. BAK assumes no liability for injury, loss, incidental or consequential damages. BAK reserves the right to substitute an entire replacement system or provide other remedies than those listed in this warranty for discontinued products or other reasons. Shipping charges will apply for any repair or replacement.

BAK is committed to providing you with our best service at all times. Please feel free to contact us should you require any assistance with your BAK product.

CARE AND MAINTENANCE

BAK Flip tonneaus are made from durable materials and require simple care to ensure a long life of performing well and looking great.

Cleaning the Top (Washing)

Standard automotive soap and water with a soft sponge or cloth is recommended for cleaning. Shammy dry to keep the finish polished and brilliant. Wax is NOT recommended as it tends to fill in cracks and crevices, which may affect the textured panel finish. Do NOT use any harsh cleaners or abrasives.

Treating the VinylTop

3M 303 Aerospace Protectant may be used to keep the vinyl surface clean and protected from the elements and will also remove any water spots that may have developed. 303 Aerospace not only protects against fading, discoloration and cracking from harmful UV rays, but repels dust and stains. Simply spray on and wipe dry for a beautiful, matte finish that protects your cover from road grime and dust.

Maintenance

It is recommended that you periodically check your cover is securely attached to your truck bed. Inspect the clamps and front mounting bolts to ensure they were properly installed and have not come loose or knocked out of adjustment during operation. Covers that are used with high frequency or that are subject to the vibrations and impact from rough roadways can cause the cover to require adjustment.

Lubricating the Latches

It is recommended that you periodically inspect and service the latches on each panel. Clean away any excess dirt or grime and lubricate with silicone spray. Ensure the latches move freely in and out to properly engage the side rail and provide proper performance with optimum security. Be careful not to overspray the cover. Wipe away any excess around the latch location.
